

## **INDEPENDENT AUDITOR'S REPORT**

### **To The Members of IndoStar Home Finance Private Limited Report on the Audit of the Financial Statements**

#### **Opinion**

We have audited the accompanying financial statements of IndoStar Home Finance Private Limited ("the Company"), which comprise the Balance Sheet as at 31 March 2021, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2021, and its profit, its total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

#### **Basis for Opinion**

We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

#### **Emphasis of Matter**

We draw attention to Note 30(G) of the financial statements, in which the Company describes the continuing uncertainties arising from the COVID 19 pandemic. Our opinion is not modified in respect of this matter.

#### **Information Other than the Financial Statements and Auditor's Report Thereon**

- The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's report but does not include the financial statements and our auditor's report thereon. The management

**Deloitte  
Haskins & Sells LLP**

discussion and analysis and Board's report and its annexures are expected to be made available to us after the date of this auditor's report.

- Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.
- In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- When we read management discussion and analysis and Board's report and its annexures, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance as required under SA 720 'The Auditor's responsibilities Relating to Other Information'.

**Management's Responsibility for the Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

**Auditor's Responsibility for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably

**Deloitte  
Haskins & Sells LLP**

be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the Company to express an opinion on the financial statements.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Deloitte  
Haskins & Sells LLP**

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

**Other Matter**

The comparative financial information of the Company as of and for the year ended March 31, 2020 prepared in accordance with Ind AS included in this financial statement have been audited by the predecessor auditor. The report of the predecessor auditor on these comparative financial information dated June 17, 2020 expressed an unmodified opinion.

Our opinion on the financial statements and our report on Other Legal and Regulatory Requirements below is not modified in respect of this matter.

**Report on Other Legal and Regulatory Requirements**

1. As required by Section 143(3) of the Act, based on our audit we report that:
  - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
  - c. The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account.
  - d. In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.
  - e. On the basis of the written representations received from the directors as on 31 March, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March, 2021 from being appointed as a director in terms of Section 164(2) of the Act.
  - f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
  - g. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the Company being a private company, section 197 of the Act related to the managerial remuneration is not applicable.

**Deloitte  
Haskins & Sells LLP**

- h. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements;
  - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
  - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
2. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

**ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT**

**(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)**

**Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of IndoStar Home Finance Private Limited ("the Company") as of March 31, 2021 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

**Management's Responsibility for Internal Financial Controls**

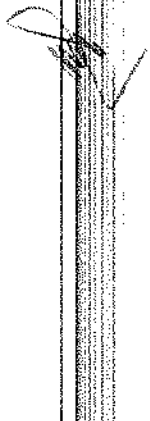

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

**Auditor's Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

**Deloitte  
Haskins & Sells LLP**

**Meaning of Internal Financial Controls Over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

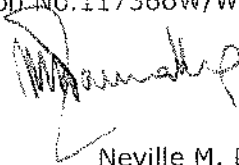

**Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion, to the best of our information and according to the explanations given to us the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

**ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT**

**(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)**

(i)(a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.

(i)(b) The Company has a program of verification of fixed assets to cover all the items in a phased manner over a period of three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, certain fixed assets were physically verified by the Management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.

(i)(c) The Company does not have any immovable properties of freehold or leasehold land and building and hence reporting under clause (i)(c) of the CARO 2016 is not applicable.

(ii) The Company does not have any inventory and hence reporting under clause (ii) of the CARO 2016 is not applicable.

(iii) The Company has not granted any loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013.

(iv) In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of Sections 185 and 186 of the Companies Act, 2013 in respect of grant of loans to director, investments made and guarantees provided. The Company has not provided any security to the parties covered under Section 185 and 186 of the Act.

(v) According to the information and explanations given to us, the Company has not accepted any deposit during the year. Accordingly, the provisions of clause 3(v) of the Order are not applicable.

(vi) Having regard to the nature of the Company's business, reporting under clause (vi) of CARO 2016 is not applicable.

(vii) According to the information and explanations given to us, in respect of statutory dues:

(vii)(a) The Company has generally been regular in depositing undisputed statutory dues, including Provident Fund, Employees' State Insurance, Income-tax, Goods and Service Tax, cess and other material statutory dues applicable to it to the appropriate authorities. The provisions relating to Sales tax, Custom Duty, Excise Duty, Value Added Tax and corresponding cess is not applicable to the Company.

(vii)(b) There were no undisputed amounts payable in respect of Provident Fund, Employees' State Insurance, Income-tax, Goods and Service Tax, cess and other material statutory dues in arrears as at March 31, 2021 for a period of more than six months from the date they became payable. The provisions relating to Sales Tax, Custom Duty, Excise Duty, Value Added Tax and corresponding cess is not applicable to the Company.

**Deloitte  
Haskins & Sells LLP**

(vii)(c) There are no dues of Income-tax and Goods and Service Tax as on March 31, 2021 on account of disputes. The provisions relating to Sales Tax, Custom Duty, Excise Duty and Value Added Tax is not applicable to the Company.

(viii) In our opinion and according to the information and explanations given to us, the Company has not defaulted in the repayment of loans or borrowings to financial institutions, banks and Government. The Company has not issued any debentures.

(ix) In our opinion and according to the information and explanations given to us, money raised by way of term loans have been applied by the Company during the year for the purposes for which they were raised, other than temporary deployment pending application of proceeds. The Company has not raised any moneys by way of initial public offer / further public offer (including debt instruments).

(x) To the best of our knowledge and according to the information and explanations given to us, no fraud by the Company and no material fraud on the Company by its officers or employees has been noticed or reported during the year.

(xi) The Company is a private company and hence the provisions of section 197 of the Companies Act, 2013 do not apply to the Company.

(xii) The Company is not a Nidhi Company and hence reporting under clause (xii) of the CARO 2016 Order is not applicable.

(xiii) In our opinion and according to the information and explanations given to us the Company is in compliance with Section 177 and 188 of the Companies Act, 2013, where applicable, for all transactions with the related parties and the details of related party transactions have been disclosed in the financial statements etc. as required by the applicable accounting standards.

(xiv) During the year the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures and hence reporting under clause (xiv) of CARO 2016 is not applicable to the Company.

(xv) In our opinion and according to the information and explanations given to us, during the year the Company has not entered into any non-cash transactions with its directors or directors of its holding or subsidiary company or persons connected with them and hence provisions of section 192 of the Companies Act, 2013 are not applicable.

(xvi) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934.

IndoStar Home Finance Private Limited

(CIN: U65990MH2016PTC271587)

Notes to the financial statements for the year ended 31 March 2021

(Currency : Indian Rupees in lakhs)

## 1 Corporate Information

IndoStar Home Finance Private Limited ('the Company') was incorporated on January 01, 2016 and is domiciled in India. The Company is wholly owned subsidiary of IndoStar Capital Finance Limited. The Company is engaged in housing finance business and registered with National Housing Bank ('NHB') as housing finance Company (HFC) not accepting public deposits, as defined under section 29A of the National Housing Bank Act, 1987.

## 2 Basis of Preparation and Significant accounting policies

### 2.1 Statement of compliance and basis of preparation

The financial statements have been prepared in accordance with Indian Accounting Standards ('Ind AS') as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ('the Act') read with the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time. The financial statements have been prepared under the historical cost convention, as modified by the application of fair value measurements required or allowed by relevant accounting standards. Accounting policies have been consistently applied to all periods presented, unless otherwise stated.

The financial statements are prepared on a going concern basis, as the management is satisfied that the Company shall be able to continue its business for the foreseeable future and no material uncertainty exists that may cast significant doubt on the going concern assumption. In making this assessment, the management has considered a wide range of information relating to present and future conditions, including future projections of profitability, cash flows and capital resources. The outbreak of COVID-19 has not affected the going concern assumption of the Company.

### 2.2 Presentation of financial statements

The Balance Sheet and the Statement of Profit and Loss are prepared and presented in the format prescribed in the Division III to Schedule III to the Act applicable for Non Banking Finance Companies ("NBFC"). The Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 "Statement of Cash Flows". The disclosure requirements with respect to items in the Balance Sheet and Statement of Profit and Loss, as prescribed in the Schedule III to the Act, are presented by way of notes forming part of the financial statements along with the other notes required to be disclosed under the notified accounting Standards.

An analysis regarding recovery or settlement of assets and liabilities of the Company as on balance sheet dates, within 12 months after the reporting date (current) and more than 12 months after the reporting date (non-current).

Financial assets and financial liabilities are generally reported gross in the balance sheet. They are only offset and reported net when, in addition to having an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event, the parties also intend to settle on a net basis in all of the following circumstances:

- the normal course of business
- the event of default
- the event of insolvency or bankruptcy of the Company// or its counterparties

### 2.3 Significant Accounting Policies

#### a) Financial Instruments

Financial assets and financial liabilities can be termed as financial instruments.

Financial instruments are recognised when the Company becomes a party to the contractual terms of the instruments.

#### (i) Classification of Financial Instruments

The Company classifies its financial assets into the following measurement categories:

1. Financial assets to be measured at amortised cost
2. Financial assets to be measured at fair value through other comprehensive income
3. Financial assets to be measured at fair value through profit or loss account

The classification depends on the contractual terms of the financial assets' cash flows and the Company's business model for managing financial assets.

The Company classifies its financial liabilities at amortised cost unless it has designated liabilities at fair value through the profit and loss account or is required to measure liabilities at fair value through profit or loss (FVTPL) such as derivative liabilities. Financial liabilities, other than loan commitments and financial guarantees, are measured at FVTPL when they are derivative instruments or the fair value designation is applied.

Transaction costs directly pertaining to the acquisition or issue of financial instruments are added to or deducted from the initial measurement amount of the instrument except where the instrument is initially measured as fair value through profit or loss.

IndoStar Home Finance Private Limited

(CIN: U65990MH2016PTC271587)

Notes to the financial statements for the year ended 31 March 2021

(Currency : Indian Rupees in lakhs)

**(ii) Assessment of business model and contractual cash flow characteristics for financial assets**

**Business model assessment**

The Company determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective. The Company's business model determines whether the cash flows will be generated by collecting contractual cash flows, selling financial assets or by both.

The Company's business model is assessed at portfolio level and not at instrument level, and is based on observable factors such as:

- (i) How the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel;
- (ii) The risks that affect the performance of the business model and, in particular, the way those risks are managed;
- (iii) The expected frequency, value and timing of sales are also important aspects of the Company's assessment. The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account.

**Solely payment of principal and interest (SPPI) test**

Subsequent to the assessment to the relevant business model of the financial assets, the Company assesses the contractual terms of 'Principal' for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset. The most significant elements of interest within a lending arrangement are typically the consideration for the time value of money and credit risk.

**(iii) Initial measurement of financial instruments**

The classification of financial instruments at initial recognition depends on their contractual terms and the business model for managing the instruments. Financial instruments are initially measured at their fair value.

**(iv) Classification of Financial Instruments as per business model and SPPI test**

**(a) Loans and Debt Instruments at amortised cost**

A 'loan or debt instrument' is measured at the amortized cost if both the following conditions are met:

- i) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- ii) The contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in interest income in the profit or loss. The losses arising from impairment are recognized in the profit or loss.

**(b) Financial assets at fair value through other comprehensive income (FVTOCI)**

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business model whose objective is achieved by both collecting contractual cash flows that give rise on specified dates to sole payments of principal and interest on the principal amount outstanding and by selling financial assets.

**(c) Financial assets at fair value through profit or loss (FVTPL)**

Financial assets at fair value through profit or loss are those that are either held for trading and have been either designated by management upon initial recognition or are mandatorily required to be measured at fair value under Ind AS 109. Management only designates an instrument at FVTPL upon initial recognition when one of the following criteria are met (such designation is determined on an instrument-by-instrument basis):

The designation eliminates, or significantly reduces, the inconsistent treatment that would otherwise arise from measuring the assets or recognising gains or losses on them on a different basis.

Financial assets at FVTPL are recorded in the balance sheet at fair value. Changes in fair value are recorded in profit and loss.

**(d) Debt securities and other borrowed funds**

After initial measurement, debt issued and other borrowed funds are subsequently measured at amortised cost. Amortised cost is calculated by taking into account any discount or premium on issue funds, and costs that are an integral part of the EIR. A compound financial instrument which contains both a liability and an equity component is separated at the issue date.

**(e) Financial guarantees**

Financial guarantees are initially recognised in the financial statements (within Provisions) at fair value, being the premium/deemed premium received. Subsequent to initial recognition, the Company's liability under each guarantee is measured at the higher of (i) the amount initially recognised less cumulative amortisation recognised in the Statement of Profit and Loss and (ii) the amount of loss allowance. The premium/deemed premium is recognised in the Statement of Profit and Loss on a straight line basis over the life of the guarantee.

IndoStar Home Finance Private Limited

(CIN: U65990MH2016PTC271587)

Notes to the financial statements for the year ended 31 March 2021

(Currency : Indian Rupees in lakhs)

**(f) Undrawn loan commitments**

Undrawn loan commitments are commitments under which, over the duration of the commitment, the Company is required to provide a loan with pre-specified terms to the customer. Undrawn loan commitments are in the scope of the ECL requirements.

**(v) Reclassification of financial assets and liabilities**

The Company does not reclassify its financial assets subsequent to their initial recognition, apart from the exceptional circumstances in which the Company acquires, disposes of, or terminates a business line.

**(vi) Derecognition of financial assets in the following circumstances**

**(a) Derecognition of financial assets due to substantial modification of terms and conditions**

The Company derecognises a financial asset, such as a loan to a customer, when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new loan, with the difference recognised as a derecognition gain or loss, to the extent that an impairment loss has not already been recorded. The newly recognised loans are classified as Stage 1 for ECL measurement purposes, unless the new loan is deemed to be credit-impaired at the origination date.

If the modification does not result in cash flows that are substantially different, the modification does not result in derecognition. Based on the change in cash flows discounted at the original EIR, the Company records a modification gain or loss, to the extent that an impairment loss has not already been recorded.

**(b) Derecognition of financial assets other than due to substantial modification**

**Financial assets**

A financial asset or a part of financial asset is derecognised when the rights to receive cash flows from the financial asset have expired. The Company also derecognises the financial asset if it has both transferred the financial asset and the transfer qualifies for derecognition.

The Company has transferred the financial asset if, and only if, either:

- The Company has transferred its contractual rights to receive cash flows from the financial asset; or
- It retains the rights to the cash flows, but has assumed an obligation to pay the received cash flows.

A transfer only qualifies for derecognition if either:

- The Company has transferred substantially all the risks and rewards of the asset; or
- The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

The Company considers control to be transferred if and only if, the transferee has the practical ability to sell the asset in its entirety to an unrelated third party and is able to exercise that ability unilaterally and without imposing additional restrictions on the transfer.

When the Company has neither transferred nor retained substantially all the risks and rewards and has retained control of the asset, the asset continues to be recognised only to the extent of the Company's continuing involvement, in which case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

**(vii) Derecognition of Financial liabilities**

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognised in profit or loss.

**Write off**

The Company writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery. Financial assets written off may still be subject to enforcement activities under the Company's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

**b) Fair Value Measurement**

On initial recognition, all the financial instruments are measured at fair value. For subsequent measurement, the Company measures certain categories of financial instruments at fair value on each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- i. In the principal market for the asset or liability, or
- ii. In the absence of a principal market, in the most advantageous market for the asset or liability

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

IndoStar Home Finance Private Limited

(CIN: U65990MH2016PTC271587)

Notes to the financial statements for the year ended 31 March 2021

(Currency : Indian Rupees in lakhs)

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques, as summarised below:

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1: quoted prices in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: inputs for the asset or liability that are not based on observable market data.

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred, if any.

c) **Property plant and equipment**

**Recognition and measurement**

Property, Plant and Equipment (PPE) is recognised when it is probable that the future economic benefits associated with it will flow to the company and the cost can be measured reliably

Property, Plant and Equipment (PPE) are stated at cost less accumulated depreciation and impairment losses, if any. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use. Borrowing costs relating to acquisition of assets which takes substantial period of time to get ready for its intended use are also included to the extent they relate to the year till such assets are ready to be put to use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Gains or losses arising from derecognition of such assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss when the asset is derecognized.

**Subsequent expenditure**

Subsequent costs are included in the assets carrying amount or recognized as a separate asset, as appropriate only if it is probable that the future economic benefits associated with the item will flow to the Company and that the cost of the item can be reliably measured. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repair and maintenance are charged to the Statement of Profit and Loss during the reporting period in which they are incurred.

**Depreciation**

Depreciation is provided on Straight Line Method ('SLM'), which reflects the management's estimate of the useful life of the respective assets. The estimated useful life used to provide depreciation are as follows:

| Particulars            | Estimated useful life by the Company | Useful life as prescribed by Schedule II of the Companies Act 2013 |
|------------------------|--------------------------------------|--|
| Computers              | 3 years                              | 3 years  |
| Office Equipment       | 5 years                              | 5 years  |
| Furniture and fixtures | 5 years                              | 10 years   |
| Servers and networks   | 5 years                              | 6 years  |

Property, plant and equipment items individually costing less than Rs. 5,000 are depreciated fully in the year of purchase.

Leasehold improvement is amortised on Straight Line Method over the lease term, subject to a maximum of 60 months.

Useful life of assets different from prescribed in Schedule II of the Act has been estimated by management and supported by technical assessment.

Depreciation on assets acquired/sold during the year is recognised on a pro-rata basis to the Statement of Profit and Loss till the date of sale.

The useful lives and the method of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate. Changes in the expected useful life are accounted for by changing the amortisation period or methodology, as appropriate, and treated as changes in accounting estimates.

IndoStar Home Finance Private Limited

(CIN: U65990MH2016PTC271587)

Notes to the financial statements for the year ended 31 March 2021

(Currency : Indian Rupees in lakhs)

d) **Intangible assets**

**Recognition and measurement**

An intangible asset is recognised only when its cost can be measured reliably and it is probable that the expected future economic benefits that are attributable to it will flow to the Company. Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortisation. The cost of intangible assets acquired in a business combination is their fair value as at the date of acquisition.

**Amortisation**

Intangible assets are amortised using the straight line method over a period of 3 years, which is the management's estimate of its useful life. The amortisation period and the amortisation method are reviewed at least as at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortisation period is changed accordingly.

Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognised as income or expense in the Statement of Profit and Loss.

e) **Impairment**

**(i) Financial Assets**

**(a) Expected Credit Loss (ECL) principles**

The Company records allowance for expected credit losses for all loans, debt financial assets not held at FVTPL, together with undrawn loan commitments, in this section all referred to as 'financial instruments'. Equity instruments are not subject to impairment under Ind AS 109.

For the computation of ECL on the financial instruments, the Company categorises its financial instruments as mentioned below:

**Stage 1:** All exposures where there has not been a significant increase in credit risk since initial recognition or that has low credit risk at the reporting date and that are not credit impaired upon origination are classified under this stage. The Company classifies all advances upto 30 days overdue under this category. Stage 1 loans also include facilities where the credit risk has improved and the loan has been reclassified from Stage 2.

**Stage 2:** All exposures where there has been a significant increase in credit risk since initial recognition but are not credit impaired are classified under this stage. Exposures are classified as Stage 2 when the amount is due for more than 30 days but do not exceed 90 days.

**Stage 3:** All exposures are assessed as credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of that asset have occurred. Exposures where the amount remains due for 90 days or more are considered as to be stage 3 assets.

The Company has established a policy to perform an assessment, at the end of each reporting period, of whether a financial instrument's credit risk has increased significantly since initial recognition, by considering the change in the risk of default occurring over the remaining life of the financial instrument. The Company undertakes the classification of exposures within the aforesaid stages at borrower level.

**(b) Calculation of ECL:**

ECL is a probability weighted credit losses (i.e. present value of all cash shortfalls) over the expected life of the financial instruments. Cash shortfalls are the difference between the cash flows that the entity is entitled to receive on account of contract and the cash flows that the entity expects to receive.

The mechanics of the ECL calculations are outlined below and the key elements are as follows:

**Exposure-At-Default (EAD) :** The Exposure at Default is the amount the Company is entitled to receive as on reporting date including repayments due for principal and interest, whether scheduled by contract or otherwise, expected drawdowns on committed facilities.

**IndoStar Home Finance Private Limited**

(CIN: U65990MH2016PTC271587)

**Notes to the financial statements for the year ended 31 March 2021**

(Currency : Indian Rupees in lakhs)

**Probability of Default (PD) :** The Probability of Default is an estimate of the likelihood of default of the exposure over a given time horizon. A default may only happen at a certain time over the assessed period, if the facility has not been previously derecognised and is still in the portfolio.

**Loss Given Default (LGD) :** The Loss Given Default is an estimate of the loss arising in the case where a default occurs at a given time. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, including from the realisation of any collateral.

The ECL allowance is applied on the financial instruments depending upon the classification of the financial instruments as per the credit risk involved. ECL allowance is computed on the below mentioned basis:

**12-month ECL:** 12-month ECL is the portion of Lifetime ECL that represents the ECL that results from default events on a financial instrument that are possible within the 12 months after the reporting date. 12-month ECL is applied on stage 1 assets.

**Lifetime ECL:** Lifetime ECL for credit losses expected to arise over the life of the asset in cases of credit impaired loans and in case of financial instruments where there has been significant increase in credit risk since origination. Lifetime ECL is the expected credit loss resulting from all possible default events over the expected life of a financial instrument. Lifetime ECL is applied on stage 2 and stage 3 assets.

The Company computes the ECL allowance either on individual basis or on collective basis, depending on the nature of the underlying portfolio of financial instruments.

#### **Significant increase in Credit Risk**

The Company monitors all financial assets and financial guarantee contracts that are subject to the impairment requirements to assess whether there has been a significant increase in credit risk since initial recognition. If there has been a significant increase in credit risk the Company will measure the loss allowance based on lifetime rather than 12-month ECL.

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Company compares the risk of a default occurring on the financial instrument at the reporting date based on the remaining maturity of the instrument with the risk of a default occurring that was anticipated for the remaining maturity at the current reporting date when the financial instrument was first recognised. In making this assessment, the Company considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort, based on the Company's historical experience and expert credit assessment.

Given that a significant increase in credit risk since initial recognition is a relative measure, a given change, in absolute terms, in the Probability of Default will be more significant for a financial instrument with a lower initial PD than compared to a financial instrument with a higher PD.

As a back-stop when loan asset not being a loans becomes 30 days past due, the Company considers that a significant increase in credit risk has occurred and the asset is in stage 2 of the impairment model, i.e. the loss allowance is measured as the lifetime ECL in respect of all retail assets.

For the purpose of counting of day past due for the assessment of significant increase in credit risk, the special dispensations to any class of assets in accordance with COVID19 Regulatory Package notified by the Reserve Bank of India (RBI) has been applied by the company.

#### **Modification and derecognition of financial assets**

A modification of a financial asset occurs when the contractual terms governing the cash flows of a financial asset are renegotiated or otherwise modified between initial recognition and maturity of the financial asset. A modification affects the amount and/or timing of the contractual cash flows either immediately or at a future date. In addition, the introduction of a new covenants or adjustment of existing covenants of an existing loan may constitute a modification even if these new or adjusted covenants do not yet affect the cash flows immediately but may affect the cash flows depending on whether the covenant is or is not met (e.g. a change to the increase in the interest rate that arises when covenants are breached).

The Company renegotiates loans to customers in financial difficulty to maximise collection and minimise the risk of default. A loan forbearance is granted in cases where although the borrower made all reasonable efforts to pay under the original contractual terms, there is a high risk of default or default has already happened and the borrower is expected to be able to meet the revised terms. The revised terms in most of the cases include an extension of the maturity of the loan, changes to the timing of the cash flows of the loan (principal and interest repayment), reduction in the amount of cash flows due (principal and interest forgiveness) and amendments to covenants.

When a financial asset is modified the Company assesses whether this modification results in derecognition. In accordance with the Company's policy a modification results in derecognition when it gives rise to substantially different terms. To determine if the modified terms are substantially different from the original contractual terms the Company considers the following:

- Qualitative factors, such as contractual cash flows after modification are no longer SPPI,
- Change in currency or change of counterparty,
- The extent of change in interest rates, maturity, covenants.

If this do not clearly indicate a substantial modification, then:

(a) in the case where the financial asset is derecognised the loss allowance for ECL is remeasured at the date of derecognition to determine the net carrying amount of the asset at that date. The difference between this revised carrying amount and the fair value of the new financial asset with the new terms will lead to a gain or loss on derecognition. The new financial asset will have a loss allowance measured based on 12-month ECL except in the rare occasions where the new loan is considered to be originated-credit impaired. This applies only in the case where the fair value of the new loan is recognised at a significant discount to its revised par amount because there remains a high risk of default which has not been reduced by the modification. The Company monitors credit risk of modified financial assets by evaluating qualitative and quantitative information, such as if the borrower is in past due status under the new terms.

(b) When the contractual terms of a financial asset are modified and the modification does not result in derecognition, the Company determines if the financial asset's credit risk has increased significantly since initial recognition by comparing:

- the remaining lifetime PD estimated based on data at initial recognition and the original contractual terms; with
- the remaining lifetime PD at the reporting date based on the modified terms.

For financial assets modified, where modification did not result in derecognition, the estimate of PD reflects the Company's ability to collect the modified cash flows taking into account the Company's previous experience of similar forbearance action, as well as various behavioural indicators, including the borrower's payment performance against the modified contractual terms. If the credit risk remains significantly higher than what was expected at initial recognition the loss allowance will continue to be measured at an amount equal to lifetime ECL. The loss allowance on forbore loans will generally only be measured based on 12-month ECL when there is evidence of the borrower's improved repayment behaviour following modification leading to a reversal of the previous significant increase in credit risk.

Where a modification does not lead to derecognition the Company calculates the modification gain/loss comparing the gross carrying amount before and after the modification (excluding the ECL allowance). Then the Company measures ECL for the modified asset, where the expected cash flows arising from the modified financial asset are included in calculating the expected cash shortfalls from the original asset.

#### Presentation of ECL allowance in the Balance Sheet

For financial assets measured at amortised cost, loss allowance for ECL is presented as a deduction from the gross carrying amount of the assets.

#### (ii) Non-financial assets

##### Intangible assets

The carrying amount of assets is reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognised when the carrying amount of an individual asset exceeds its recoverable amount. The recoverable amount is the higher of fair value of the asset less cost of its disposal and value in use.

#### f) Recognition of income

Revenue generated from the business transactions (other than for those items to which Ind AS 109 Financial Instruments are applicable) is measured at fair value of the consideration to be received or receivable by the Company. Ind AS 115 Revenue from contracts with customers outlines a single comprehensive model of accounting for revenue arising from contracts with customers.

The Company recognises revenue from contracts with customers based on a five step model as set out in Ind 115:

**Step 1:** Identify contract(s) with a customer

**Step 2:** Identify performance obligations in the contract

**Step 3:** Determine the transaction price

**Step 4:** Allocate the transaction price to the performance obligations in the contract

**Step 5:** Recognise revenue when (or as) the Company satisfies a performance obligation

##### (a) Recognition of interest income

Interest income is recorded using the effective interest rate (EIR) method for all financial instruments measured at amortised cost. The EIR is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument or, when appropriate, a shorter period, to the net carrying amount of the financial asset.

The EIR for the amortised cost asset is calculated by taking into account any discount or premium on acquisition, origination fees and transaction costs that are an integral part of the EIR.

If expectations regarding the cash flows on the financial asset are revised for reasons other than credit risk. The adjustment is booked as a positive or negative adjustment to the carrying amount of the asset in the balance sheet with an increase or reduction in interest income. The adjustment is subsequently amortised through Interest income in the statement of profit and loss.

The Company calculates interest income by applying the EIR to the gross carrying amount of financial assets other than credit-impaired assets. When a financial asset becomes credit-impaired and is, therefore, regarded as 'Stage 3', the Company recognised the interest income by applying the effective interest rate to the net amortised cost of the financial asset. If the financial status of the financial asset improves and it no longer remains to be a credit-impaired, the Company revises the application of interest income on such financial asset to calculating interest income on a gross basis.

Interest income on all trading assets and financial assets mandatorily required to be measured at FVTPL is recognised as interest income in the statement of profit or loss.

**(b) Origination fees**

Origination fees, which the Company has received/recovered at time of granting of a loan, is considered as a component for computation of the effective rate of interest (EIR) for the purpose of computing interest income.

**(c) Assignment income**

In accordance with Ind AS 109, in case of assignment transactions with complete transfer of risks and rewards, gain arising on such assignment transactions is recorded upfront in the Statement of Profit and Loss and the corresponding asset is derecognised from the Balance Sheet immediately upon execution of such transactions. Further the transfer of financial assets qualifies for derecognition in its entirety, the whole of the interest spread at its present value (discounted over the life of the asset) is recognised on the date of derecognition itself as excess interest spread and correspondingly recognised as profit on derecognition of financial asset.

**(d) Securitisation transactions :**

In accordance with Ind AS 109, in case of securitisation transactions, the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

**(e) Net gain/(loss) on Fair value changes**

Any differences between the fair values of financial assets classified as fair value through the profit or loss, held by the Company on the balance sheet date is recognised as an unrealised gain or loss as a gain or expense respectively.

Similarly, any realised gain or loss on sale of financial instruments measured at FVTPL and debt instruments measured at FVOCI is recognised in net gain / loss on fair value changes.

**g) Finance Costs**

The Company recognises interest expense on the borrowings as per EIR methodology which is calculated by considering any ancillary costs incurred and any premium payable on its maturity.

**h) Retirement and other employee benefits**

**(i) Defined Contribution Plan**

**Provident Fund**

All the employees of the Company are entitled to receive benefits under the Provident Fund, a defined contribution plan in which both the employee and the Company contribute monthly at a stipulated rate. The Company has no liability for future Provident Fund benefits other than its annual contribution and recognises such contributions as an expense, when an employee renders the related service.

**(ii) Defined Benefit schemes**

**(a) Gratuity**

The Company provides for the gratuity, a defined benefit retirement plan covering all employees. The plan provides for lump sum payments to employees upon death while in employment or on separation from employment after serving for the stipulated year mentioned under 'The Payment of Gratuity Act, 1972'. The Company accounts for liability of future gratuity benefits based on an external actuarial valuation on projected unit credit method carried out for assessing liability as at the reporting date.

Net interest recognized in profit or loss is calculated by applying the discount rate used to measure the defined benefit obligation to the net defined benefit liability or asset. The actual return on the plan assets above or below the discount rate is recognized as part of re-measurement of net defined liability or asset through other comprehensive income. Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through Other comprehensive income ('OCI') in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

**(b) Compensated absences**

Compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related services are provided for based on estimates. Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are provided for based on actuarial valuation. The actuarial valuation is done as per projected unit credit method as at the reporting date. Actuarial gains/losses are immediately taken to Statement of profit and loss account and are not deferred.

**i) Share based employee payments**

**Equity settled share based payments**

The stock options granted to employees are measured at the fair value of the options at the grant date. The fair value of the options is treated as discount and accounted as employee compensation cost over the vesting period on a straight line basis. The amount recognised as expense in each year is arrived at based on the number of grants expected to vest. If a grant lapses after the vesting period, the cumulative discount recognised as expense in respect of such grant is transferred to the general reserve within equity.

Such rights have been provided to the employees on the equity shares of the Indostar Capital Finance Limited, which is holding Company. Such contribution is credited directly as capital contribution of the Company.

j) Leases

The determination of whether an arrangement is a lease, or contains a lease, is based on the substance of the arrangement and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets or whether the arrangement conveys a right to use the asset.

**Company as a lessee**

Leases that do not transfer to the Company substantially all of the risks and benefits incidental to ownership of the leased items are treated as operating leases. Operating lease payments are recognised as an expense in the statement of profit and loss on a straight-line basis over the lease term, unless the increase is in line with expected general inflation, in which case lease payments are recognised based on contractual terms. Contingent rental payable is recognised as an expense in the period in which they it is incurred.

**Critical accounting estimate and judgement**

**1. Determination of lease term**

Ind AS 116 Leases requires lessee to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes assessment on the expected lease term on lease by lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of lease and the importance of the underlying to the Company's operations taking into account the location of the underlying asset and the availability of the suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

**2. Discount Rate**

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

k) Foreign currency translation

**Functional and presentational currency**

The financial statements are presented in INR which is also functional currency of the Company and the currency of the primary economic environment in which the Company operates.

l) Provisions

A provision is recognised when the Company has a present obligation as a result of past event; it is probable that outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

m) Taxes

**(i) Current tax**

Current tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from, or paid to, the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted, or substantively enacted, by the reporting date in the countries where the Company operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

**(ii) Deferred tax**

Deferred tax is provided on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

IndoStar Home Finance Private Limited

(CIN: U65990MH2016PTC271587)

Notes to the financial statements for the year ended 31 March 2021

(Currency : Indian Rupees in lakhs)

**n) Earnings Per Share**

The Company reports basic and diluted earnings per share in accordance with Ind AS 33 on Earnings per share. Basic EPS is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless they have been issued at a later date. In computing the dilutive earnings per share, only potential equity shares that are dilutive and that either reduces the earnings per share or increases loss per share are included.

**o) Contingent Liabilities**

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

**p) Segment reporting**

The Company is primarily engaged in the business of housing finance and accordingly there are no separate reportable segments as per Ind AS 108 dealing with Operating segment.

**2.4 Significant accounting judgements, estimates and assumptions**

The preparation of financial statements in conformity with Ind AS requires that the management of the Company makes estimates and assumptions that affect the reported amounts of income and expenses of the period, the reported balances of assets and liabilities and the disclosures relating to contingent liabilities as of the date of the financial statements. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates include useful lives of property, plant and equipment & intangible assets, allowance for expected credit losses, fair value measurement etc. Difference, if any, between the actual results and estimates is recognised in the period in which the results are known.

**Note :**

The term loan from holding company includes a optionally convertible loan into equity share of the company of Rs. 10,000.00 lakhs as on 31st March 2021 (Previous year Rs 10,000.00 lakhs). IndoStar Capital Finance Limited has the right to convert whole or part of the outstanding of the said loan amount into fully paid equity shares of the Company at a price which is higher of (i) the fair market value of the equity shares of the company as determined by an independent Category II Merchant Banker registered with the Securities and Exchange Board of India or by an independent Chartered Accountant, as on a date not preceding 6 months from the date on which the right to convert loan amount is exercised by IndoStar Capital Finance Limited; or (ii) face value of equity shares of the Company. The portion of the loan so converted shall cease to carry interest and the outstanding loan amount shall stand correspondingly reduced.

## c. Particulars of shares held by holding Company

| Name of shareholder              | Relationship    | As at 31 March 2021      |            | As at 31 March 2020      |            |
|----------------------------------|-----------------|--------------------------|------------|--------------------------|------------|
|                                  |                 | No of equity shares held | Percentage | No of equity shares held | Percentage |
| Indostar Capital Finance Limited | Holding Company | 20,00,00,000             | 100%       | 20,00,00,000             | 100%       |

As per records of the Company, including its register of shareholders/members, the above shareholding represents legal ownerships of shares.

## d. Particulars of shareholders holding more than 5% of shares held

| Name of shareholder               | Relationship    | As at 31 March 2021      |            | As at 31 March 2020      |            |
|-----------------------------------|-----------------|--------------------------|------------|--------------------------|------------|
|                                   |                 | No of equity shares held | Percentage | No of equity shares held | Percentage |
| IndoStar Capital Finance Limited* | Holding Company | 20,00,00,000             | 100%       | 20,00,00,000             | 100%       |

\* 1 equity share each is held by six individuals jointly with IndoStar Capital Finance Limited, further beneficial interest of the same is with IndoStar Capital Finance Limited.

As per records of the Company, including its register of shareholders/members, the above shareholding represents legal ownerships of shares.

## e. Terms/rights attached to equity shares

The Company has only one class of equity shares having a par value of Rs. 10 per share. Each holder of equity shares is entitled to proportionate vote on basis of his contribution to fully paid up share capital.

In the event of liquidation of the Company, the holders of equity shares will be entitled to receive remaining assets of the Company, after distribution of all preferential amounts. The distribution will be in proportion to the proportionate amount of contribution made by the equity shareholder to the total equity share capital.

**IndoStar Home Finance Private Limited**

(CIN: U65990MH2016PTC271587)

**Notes to the financial statements for the year ended 31 March 2021**

(Currency : Indian Rupees in lakhs)

**Note 29****Earnings per share (EPS)**

Basic EPS calculated by dividing the net profit for the year attributable to equity holders by the weighted average number of equity shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the profit attributable to equity holders (after adjusting profit impact of dilutive potential equity shares, if any) by the aggregate of weighted average number of equity shares outstanding during the year and the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

**Note 30**  
**Financial Instruments – Fair values and Risk management**

**A. Accounting classification and fair values**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions, regardless of whether that price is directly observable or estimated using a valuation technique.

The management has assessed that the carrying amounts of cash and cash equivalents, loans carried at amortised cost, other financial assets, trade payables, borrowings, bank/book overdrafts and other current liabilities are a reasonable approximation to their fair value.

**B. Risk Management Framework:**

Company's risk management framework is based on

- (a) Clear understanding and identification of various risks
- (b) Disciplined risk assessment by evaluating the probability and impact of each risk
- (c) Measurement and monitoring of risks by establishing key risk indicators with thresholds for all critical risks and
- (d) Adequate review mechanism to monitor and control risks.

Company's risk management division works as a value centre by constantly engaging with the business providing reports based on key analysis and insights. The key risks faced by the company are credit risk, liquidity risk, interest rate risk, operational risk, reputational and regulatory risk, which are broadly classified as credit risk, market risk and operational risk. The company has a well established risk reporting and monitoring framework. The company identifies and monitors risks periodically. This process enables the company to reassess the all critical risks in a changing environment that need to be focused on.

**C. Risk governance structure:**

Company's risk governance structure operates with a robust Board and Risk Management Committee ('RMC') with a clearly laid down charter and roles and responsibilities. The Board oversees the risk management process and monitors the risk profile of the company directly as well as through a Board constituted Risk Management Committee. The Committee reviews the risk management policy, implementation of risk management framework, monitoring of critical risks, and review of various other initiatives. The risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate limits and controls and to monitor risks and adherence to limits. The RMC reviews the risk management policies regularly to reflect the changes in market conditions and Company's activities.

The Audit Committee oversees how management monitors compliance with risk management policies and procedures and reviews the adequacy of risk management framework in relation to the risk faced by the Company.

The risk management division has established a comprehensive risk management framework across the business and provides appropriate reports on risk exposures and analysis in its pursuit of creating awareness across the Company about risk management.

**D. Fair value hierarchy**

Ind AS 107, 'Financial Instrument - Disclosure' requires classification of the valuation method of financial instruments measured at fair value in the Balance Sheet, using a three level fair-value-hierarchy (which reflects the significance of inputs used in the measurements). The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to un-observable inputs (Level 3 measurements). The three levels of the fair-value-hierarchy under Ind AS 107 are described below:

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and place limited reliance on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

The following table shows the carrying amounts and fair values of financial assets including their levels in the fair value hierarchy:

| Particulars                                 | As at 31 March 2021                |   |                  |                  |  |   |   |                  |

**E. Liquidity risk**

Liquidity is the Company's capacity to fund increase in assets and meet both the expected and unexpected obligations without incurring unacceptable losses. Liquidity risk is the inability to meet such obligations as they become due without adversely affecting the company's financial conditions. The Asset Liability Management Policy of the Company stipulates a broad framework for Liquidity risk management to ensure that the Company can meet its liquidity obligations. The Asset Liability Management Committee ('ALCO') monitors composition, characteristics and diversification of funding sources to ensure there is no over reliance on single source of funding. The Company tracks the cash flow mismatches for measuring and managing net funding requirement through Maturity Ladder approach and reviews short-term liquidity profiles based on business projections and other commitments for planning purposes through Dynamic Liquidity analysis. The ALCO also reviews the individual mismatch in each time-bucket and cumulative mismatch and ensures the bucket wise limits are not generally breached.

The Company maintains a portfolio of highly marketable and diverse assets that are assumed to be easily liquidated in the event of an unforeseen interruption in cash flow. The liquidity position of the company is assessed under a variety of scenarios giving due consideration to stress factors relating to both the market in general and risk specific to the Company. Basis the liquidity position assessed under various stress scenarios; the Company reviews the following to effectively handle any liquidity crisis:

- Adequacy of contingency funding plan in terms of depth of various funding sources, time to activate, cost of borrowing, etc
- Availability of unencumbered eligible assets

Maturity profile of undiscounted cash flows for financial liabilities as on balance sheet date have been provided below:

**Note 30**  
**Financial Instruments – Fair values and Risk management (continued)**

**F: Credit risk**

Credit risk arises when a borrower is unable to meet his contractual obligations to the lender. The effective management of credit risk requires the establishment of appropriate credit risk policies and processes. The Company has comprehensive and well defined credit policies across various businesses, products and segments, which encompass credit approval process for all businesses along with guidelines for mitigating the risks associated with them. The appraisal process includes detailed risk assessment of the borrowers, physical verifications and field visits. The company has a robust post sanction monitoring process to identify portfolio-wise credit risk trends and early warning signals. This enables it to implement necessary changes to the credit policy, whenever the need arises to prevent any further slippage in the credit quality.

**Significant Increase in credit risk**

The credit risk on a financial asset of the Company are assumed to have increased significantly since initial recognition when contractual payments are more than 30 days past due. The loans where the renegotiated terms are not substantially different and involve repayment terms to be extended including interest or the EMI amount readjusted over the tenure are classified as Stage 2. Additionally, accounts identified and reviewed by the credit committee for labeling as breaching pre-defined critical credit risk parameters will also be classified as Stage 2. Accordingly, the financial assets shall be classified as Stage 2, based on the quantitative as well as qualitative factors.

**Write off policy**

Financial assets are written off either partially or in their entirety only when the Company has stopped pursuing the recovery. Any subsequent recoveries are credited to impairment on financial instrument in statement of profit and loss.

**Restructured financial assets**

A loan where repayment terms are renegotiated on substantially different terms as compared to the original contracted terms due to significant increase in credit risk of the borrower are classified as stage 2. Such loans continue to be in stage 2 until they exhibit regular payment of renegotiated principal and interest over a minimum observation period typically 12 months-post renegotiation, and there are no other indicators of impairment. Having satisfied the conditions of timely payment over the observation period these loans could be transferred to stage 1 and a fresh assessment of the risk of default is done.

**Overview of the Expected Credit Loss principles**

The Company records allowance for expected credit losses for all loans, debt financial assets not held at FVTPL, undrawn loan commitments (referred to as 'financial instruments'). Based on the above process, the Company categorises its loans into Stage 1, Stage 2 and Stage 3, as described below:

**Stage 1:** When loans are first recognised, the Company recognises an allowance based on 12mECL. Stage 1 loans also include facilities where the credit risk has improved, and the loan has been reclassified from Stage 2/ Stage 3. Loans that are standard with days past due (DPD) not exceeding 30 days as on reporting period are categorized under Stage 1

**Stage 2:** When a loan has shown a significant increase in credit risk since origination, the Company records an allowance for the LTECL. Stage 2 loans also include facilities, where the credit risk has improved, and the loan has been reclassified from Stage 3. Loans that are standard with days past due (DPD) in the range of 31-90 days as on reporting period are categorized under Stage 2.

**Stage 3:** Loans considered credit impaired and crossed 90 DPD as on reporting period. The company records an allowance for the LTECL.

**Definition of default**

A default on a financial asset is when the counterparty fails to make the contractual payments within 90 days of when they fall due. Accordingly, the financial assets shall be classified as Stage 3, if on the reporting date, it has been 90 days past due. Non-payment on another obligation of the same customer is also considered as a Stage 3.

**The calculation of ECL**

The Company calculates ECL to measure the expected cash shortfalls, discounted at an approximation to the EIR. A cash shortfall is the difference between the cash flows that are due to an entity in accordance with the contract and the cash flows that the entity expects to receive.

The key elements of the ECL are summarised below:

**PD:** The probability of default ('PD') is an estimate of the likelihood of default over a given time horizon. A default may only happen at a certain time over the assessed period. If the facility has not been previously derecognised and is still in the portfolio.

**EAD:** The Exposure at Default is the amount the Company is entitled to receive as on reporting date including repayment due for principal and interest, whether scheduled by contract or otherwise, expected drawdowns on committed facilities.

**LGD:** LGD is the magnitude of the likely loss if there is a default. The company estimates LGD parameters based on the history of recovery rates against defaulted counterparties. The LGD models consider the cash flow received, assets received in lieu of settlement of loan and collateral available for subsequent recovery that is integral to the financial asset.

Note 30

Financial Instruments – Fair values and Risk management (continued)

Forward looking information

The company employs statistical models to analyse the data collected and generate estimates of the remaining lifetime PD of exposures and how these are expected to change as a result of the passage of time. Such statistical models are selected considering the availability of information related to the probability of default for each product. This analysis includes the identification and calibration of relationships between changes in GNPA as proxy for default rates and changes in key macro-economic factors. Key economic indicators considered for forward looking includes:

- GDP growth
- WPI (Wholesale price Index)

For the purpose of determination of impact of forward looking information, the company applies macro economic (ME) variables as stated above to each product and assess the trend of the historical probability of defaults as compared to the forecasted probability of default. Based on the directional trend of output, management applies an overlay if required. Overtime, new ME variable may emerge to have a better correlation and may replace ME being used now.

The table below shows the credit quality and the maximum exposure to credit risk based on the Company's internal credit rating system and year-end stage classification. The amounts presented are gross of impairment allowances.

| Particulars                                 | 31 March 2021    |                 |                 |                  |

G. Risk Management amidst COVID-19 :

Estimation uncertainty relating to COVID-19 global health pandemic:

In assessing the recoverability of loans, receivables and investments, the Company has considered internal and external sources of information, economic forecasts and industry reports upto the date of approval of these financial results. The Company has performed stress testing on the assumptions used and based on current indicators of future economic conditions, the Company expects to recover the carrying amount of these assets. The Company has developed estimates and applied management overlays for the purpose of determination of the provision for impairment of financial assets.

The full extent of impact of the pandemic (Wave 2) on the Company's operations and financial performance (including impairment allowances for financial asset) will depend on future developments including governmental and regulatory measures and the Company's responses thereto, which are highly uncertain at this time.

Further, in view of the matters mentioned above, the Company is regularly assessing and monitoring the impact of the Novel Coronavirus (COVID-19) pandemic on its liquidity and ability to repay its obligations as and when they are due. Based on the foregoing and necessary stress tests considering various scenarios, management believes that the Company will be able to pay its obligations as and when these become due in the foreseeable future.

**Note 30**

**Financial instruments – Fair values and risk management (continued)**

**H. Market risk**

Market Risk is the possibility of loss arising from changes in the value of a financial instrument as a result of changes in market variables such as interest rates, exchange rates and other asset prices. The Company's exposure to market risk is a function of asset liability management and interest rate sensitivity assessment. The company is exposed to interest rate risk and liquidity risk, if the same is not managed properly. The company continuously monitors these risks and manages them through appropriate risk limits. The Asset Liability Management Committee ('ALCO') reviews market related trends and risks and adopts various strategies related to assets and liabilities, in line with the Company's risk management framework.

**I. Operational risk**

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people or systems, or from external events. The operational risks of the Company are managed through comprehensive internal control systems and procedures. Failure of managing operational risk might lead to legal / regulatory implications due to non-compliance and lead to financial loss due to control failures. While it is not practical to eliminate all the operational risk, the Company has put in place adequate control framework by way of segregation of duties, well defined process, staff training, maker and checker process, authorisation and clear reporting structure. The effectiveness of control framework is assessed by internal audit on a periodic basis.

To manage fraud risk effectively, the Company has Independent Risk Containment Unit ('RCU') which is responsible for implementing fraud risk management framework and ensure compliance. The RCU undertakes various activities such as pre-sanction loan applicant verification, pre-sanction and post disbursement documents verification, vendor verification, etc to prevent and manage frauds.

**J. Capital Disclosure**

The Company maintains adequate capital to cover risks inherent in the business and is meeting the capital adequacy requirements of our regulator, National Housing Board (NHB). The adequacy of the Company's capital is monitored using, among other measures, the regulations issued by NHB/RBI.

Company has complied in full with all its externally imposed capital requirements over the reported period.

The primary objectives of the Company's capital management policy are to ensure that the Company complies with externally imposed capital requirements and maintains strong credit ratings and healthy capital ratios in order to support its business and to maximise shareholder value.

The Company maintains its capital structure in line with economic conditions and the risk characteristics of its activities.

**Notes to the financial statements for the year ended 31 March 2021**

(Currency : Indian Rupees in lakhs)

**Note 35**

**Dues to Micro, Small and Medium enterprises as per MSMED Act, 2006**

The following disclosure is made as per the requirement under The Micro Small and Medium Enterprise Development Act, 2006 (the 'MSMED Act') on the basis of confirmations sought from suppliers on registration with the specified authorities under MSMED :

| Particulars  | As at 31 March 2021 | As at 31 March 2020 |
|--|---------------------|---------------------|
| a. Principal and interest amount remaining unpaid  | 0.32                | -                   |
| b. Interest due thereon remaining unpaid   | -                   | -                   |
| c. Interest paid by the Company in terms of Section 16 of the Micro, Small and Medium Enterprises Development Act, 2006, along with the amount of the payment made to the supplier beyond the appointed day                                | -                   | -                   |
| d. Interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the period) but without adding interest specified under the Micro, Small and Medium Enterprises Act, 2006) | -                   | -                   |
| e. Interest accrued and remaining unpaid   | -                   | -                   |
| f. Interest remaining due and payable even in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprises   | -                   | -                   |

The aforementioned is based on the responses received by the Company to its inquiries with suppliers with regard to applicability under the said Act. This has been relied upon by the auditors.

No interest has been paid/is payable by the Company during the year to the suppliers registered under this Act.

**Note 36**

**Gratuity and other post-employment benefit plans:**

The Company has unfunded defined benefit gratuity plan. Every employee who has completed five years or more of service is eligible for a gratuity on separation at 15 days basic salary (last drawn salary) for each completed year of service.

Based on Ind AS 19 'Employee Benefits' notified under Section 133 of the Companies Act 2013 and the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time, the following disclosures have been made as required by the standard:

|  | As at 31 March 2021 | As at 31 March 2020 |
|--|---------------------|---------------------|
| <b>A. Amount recognised in the balance sheet</b>                     |                     |                     |
| Present value of the obligation as at the end of the year            | 41.65               | 27.21               |
| Fair value of plan assets as at the end of the year                  | -                   | -                   |
| <b>Net asset / (liability) to be recognized in the balance sheet</b> | <b>41.65</b>        | <b>27.21</b>        |

**B. Change in projected benefit obligation**

|  | As at 31 March 2021 | As at 31 March 2020 |
|--|---------------------|---------------------|
| Projected benefit of obligation at the beginning of the year | 27.21               | 17.22               |

**F. Assumptions used**

|                    | As at<br>31 March 2021                                 | As at<br>31 March 2020                                 |
|--------------------|--|--|
| Discount rate      | 6.35%  | 6.85%  |
| Salary growth rate | 6.00%  | 6.00%  |
| Withdrawal rates   | 10% at younger ages<br>reducing to 6% at<br>older ages | 10% at younger ages<br>reducing to 6% at<br>older ages |

**G. Sensitivity analysis**

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

| Particulars                        | As at 31 March 2021 |          | As at 31 March 2020 |          |
|------------------------------------|---------------------|----------|---------------------|----------|
|                                    | Increase            | Decrease | Increase            | Decrease |
| Discount rate (0.5% movement)      | 39.49               | 44.00    | 25.72               | 28.82    |
| Salary growth rate (0.5% movement) | 43.99               | 39.58    | 28.74               | 25.78    |
| Withdrawal rate (10% movement)     | 41.03               | 42.27    | 26.65               | 27.76    |

**H. Other information :**

1. The expected contribution for the next year is Rs. 8,553/-.
2. The average outstanding term of the obligations as at valuation date is 10.28 years.
